

NIKE LEAD GLASSES BRAZEN BOOST

FRAME INFORMATION

The Nike Brazen Boost radiation glasses feature high-quality, distortion-free SF-6 Schott glass radiation-reducing lenses with 0.75mm Pb lead equivalency protection. These radiation safety glasses Nike Brazen Boost have clear CE Certified Lens and weigh 71g. They are also prescription available. Plus, the radiation glasses Nike Brazen Boost are made of high-quality plastic, featuring a durable and lightweight rectangular frame. In addition, these Nike lead glasses have rubberized nose pads and rubberized temple bars for superior comfort. They are available in four colors: matte black white, matte dark gray, matte dark obsidian, and matte black.
