

# LEAD GLASSES MODEL FITPROTEK

## FRAME INFORMATION

The FitProtek Fitover Radiation Glasses feature high-quality, distortion-free SF-6 Schott glass radiation reducing lenses with 0.75mm Pb lead equivalency protection. The FitProtek lead glasses are CE certified and weigh 90g. Plus, these leaded glasses are designed to fit over most prescription glasses effortlessly. Crafted from premium TR-90 Nylon, this lightweight frame ensures lasting durability. In addition, the FitProtek radiation protective glasses by Phillips Safety are available in three color variations: gray, blue, and pink.
